**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel Pauly on October 31, 2007.

The application has been amended as follows:

In the title, delete "and method of manufacturing".

Cancel claims 1-7.

In claim 8, line 1, delete "1" and replace with --10--.

In claim 9, line 1, delete "1" and replace with --10--.

In claim 10, on a separate line between lines 12 and 13, add the limitation --wherein the diluent is glyceryl triacetate;--.

Cancel claim 12.

Cancel claims 17-42.

2. The following is an examiner's statement of reasons for allowance: The independent claim identifies the uniquely distinct feature of a microporous shaped article of polyvinylidene fluoride as claimed having "nanometer-sized nucleating agent" and a diluent as claimed formed of glyceryl triacetate. The closest prior art Radovanovic et al (WO 00/09597 A1), fail to anticipate or render obvious a microporous shaped article of polyvinylidene fluoride as claimed having nanometer-sized nucleating agents or a diluent formed of glyceryl triacetate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
